📋 Executive Summary

Order creation ke time jab diamond SKU add hota hai aur diamond sold out mark hota hai, tab **sold_out_price galat save ho raha hai**.

🔴 Problem Statement

```
Input:  gross_sell = $500 (USD)
Code:   $500 / 83 (INR rate) = $6.02
Output: sold_out_price = $6.02 ❌ (WRONG!)
```

Root Cause: Code assumes gross_sell is INR, but it's already USD.
